tic tac toe - a gamebook

by Sacha Wheeler

Tic-tac-toe

Tic-tac-toe(or Noughts and crosses, Xs and Os) is a paper-and-pencil game for two players, X and O, who take turns marking the spaces in a 3×3 grid. The player who succeeds in placing three respective marks in a horizontal, vertical, or diagonal row wins the game.

Gamebooks

A gamebook (sometimes called 'choose your own adventure' books) is a work of fiction that allows the reader to participate in the story by making effective choices. The narrative branches along various paths through the use of numbered paragraphs or pages.

This is a sort of tic-tac-toe gamebook, where you play against the book. You play as 'X' and you go first, the book plays as 'O'.

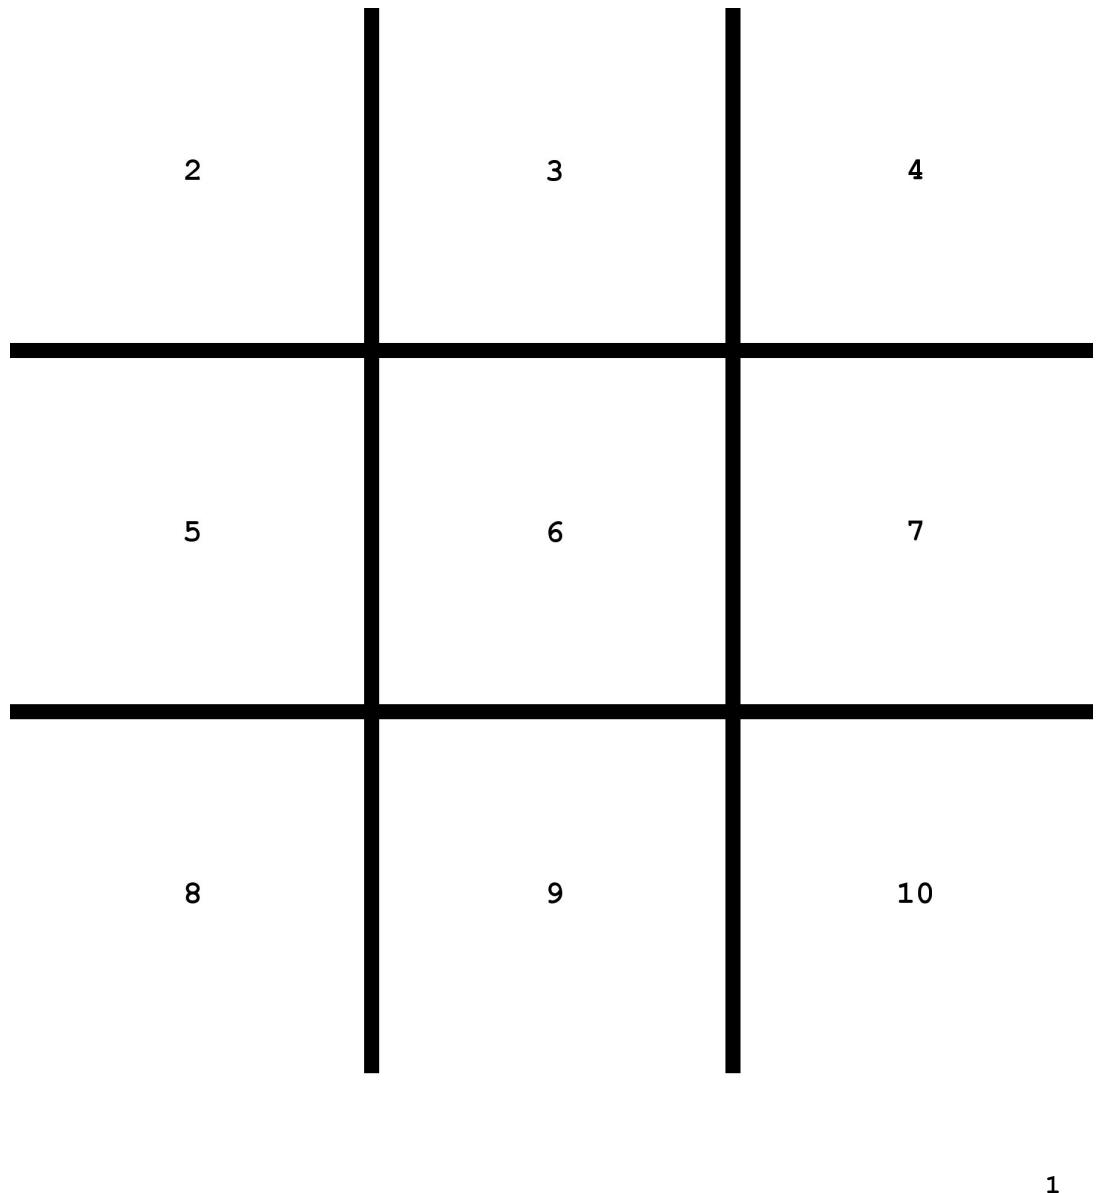

To play

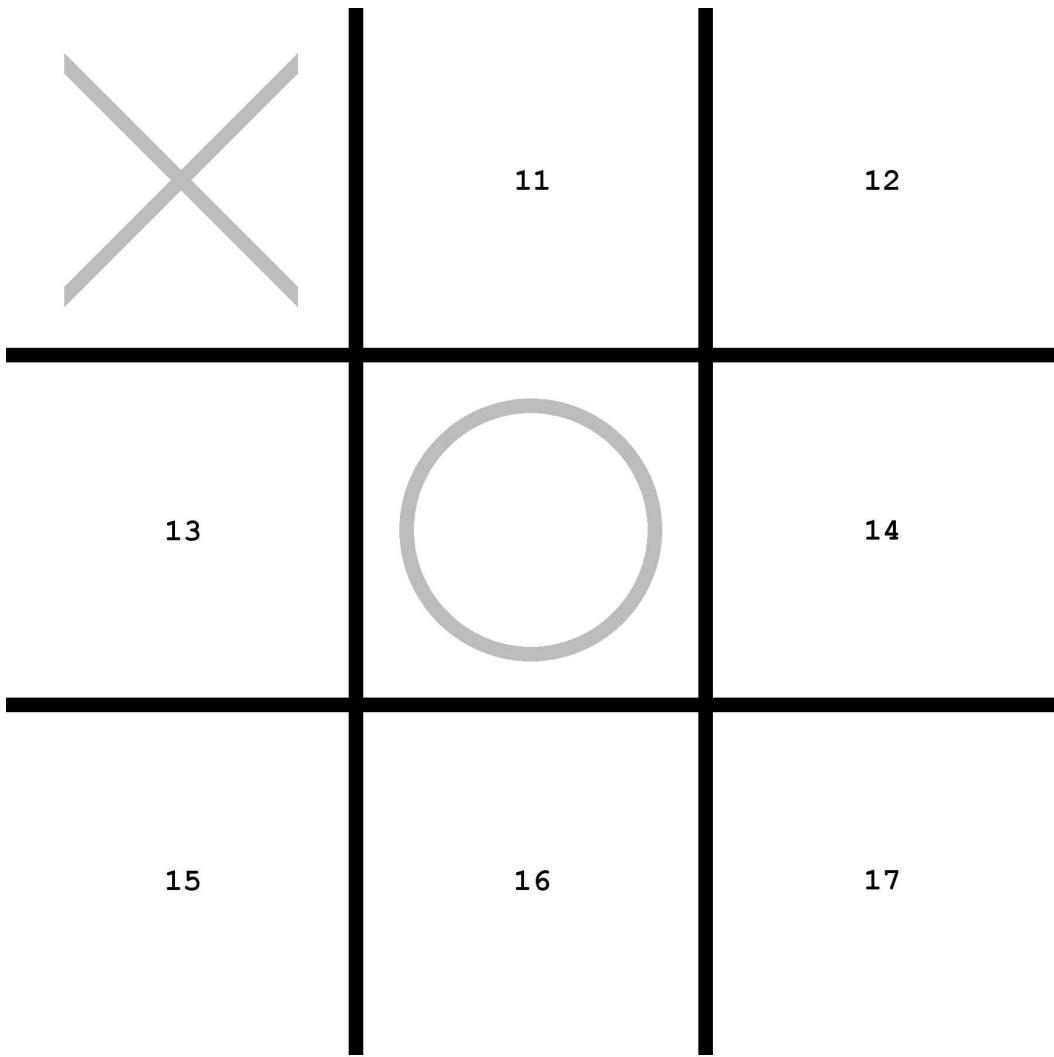

Start on page 1.

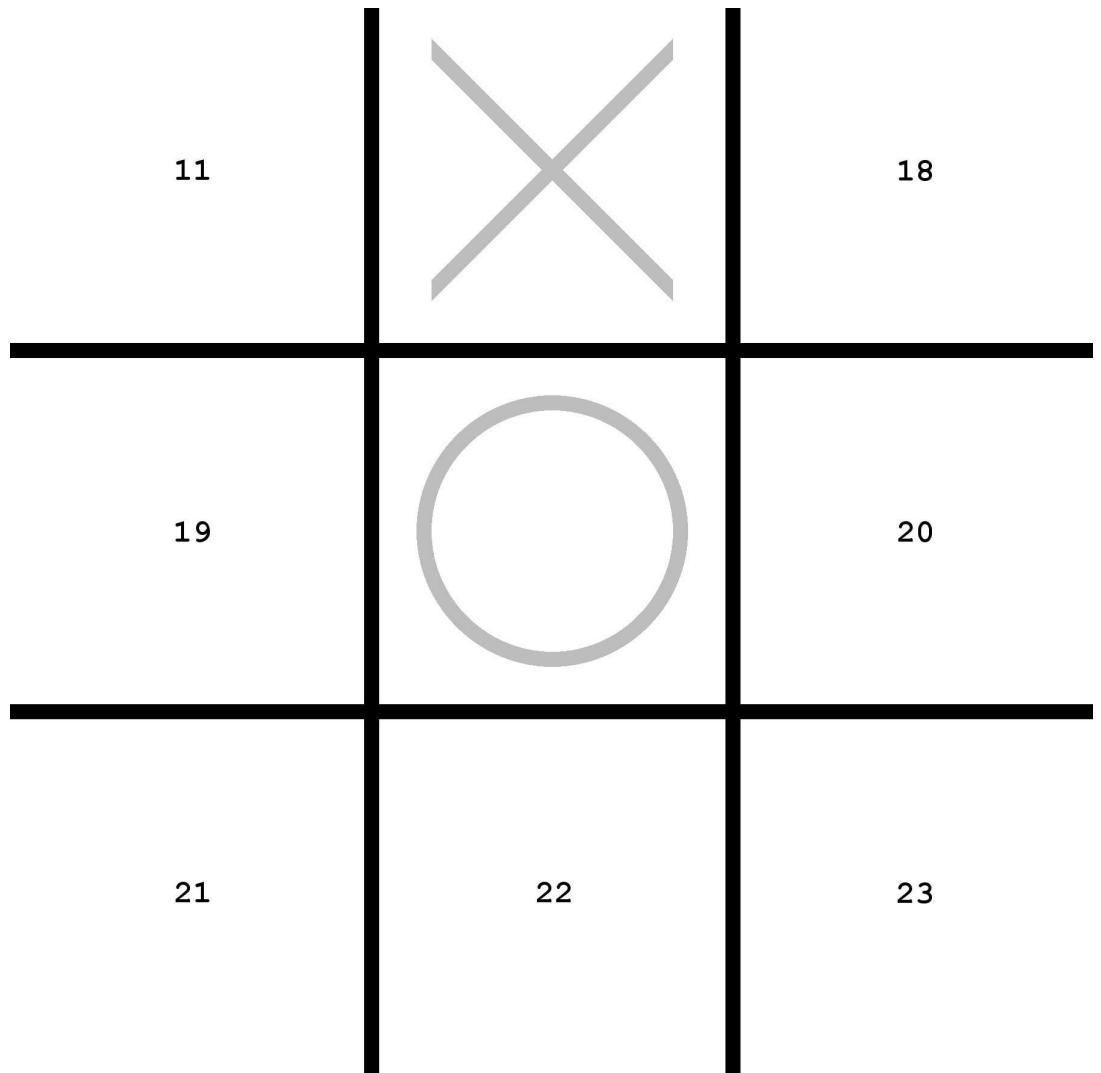

Choose an empty square where you'd like to play your X.

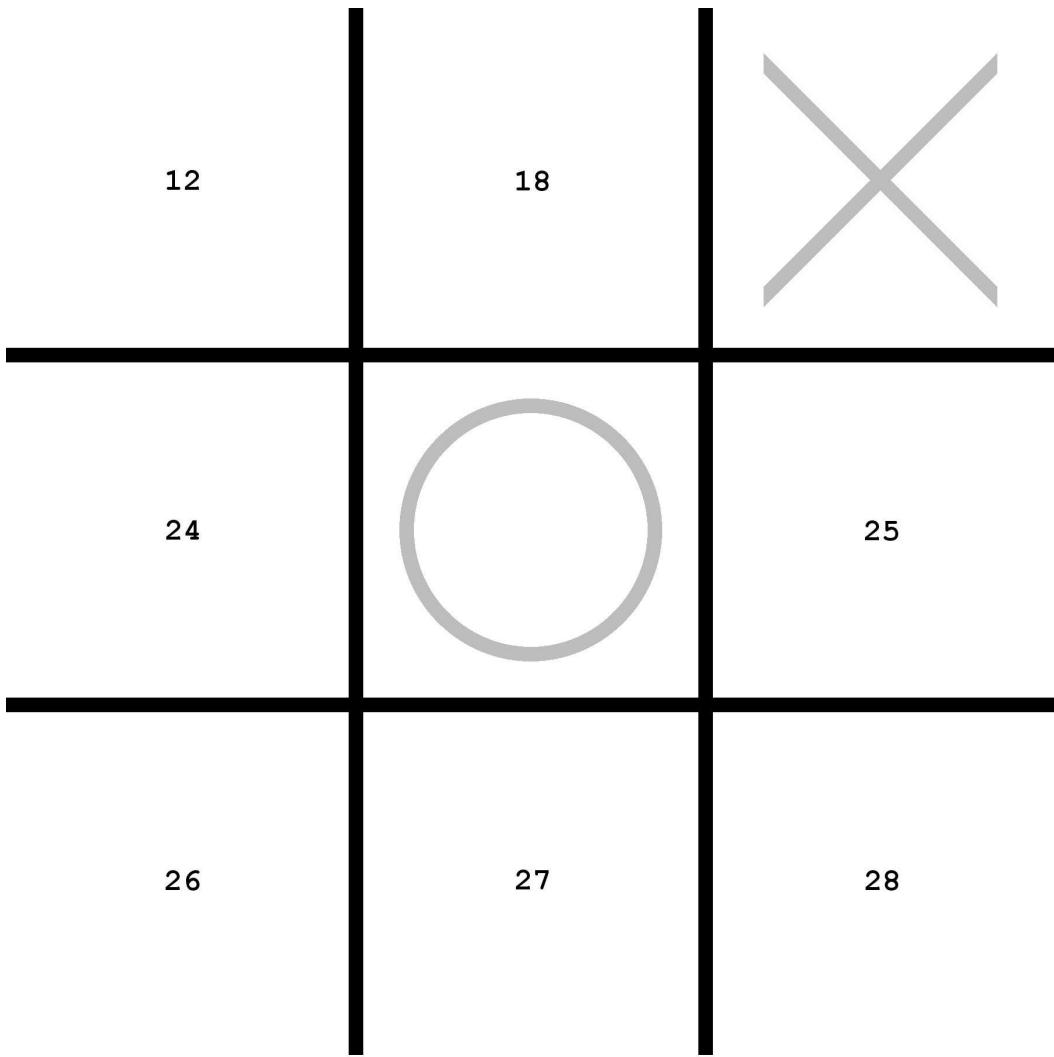

You make a move by turning to the page number that is displayed in that square. Your opponent's move is also displayed there.

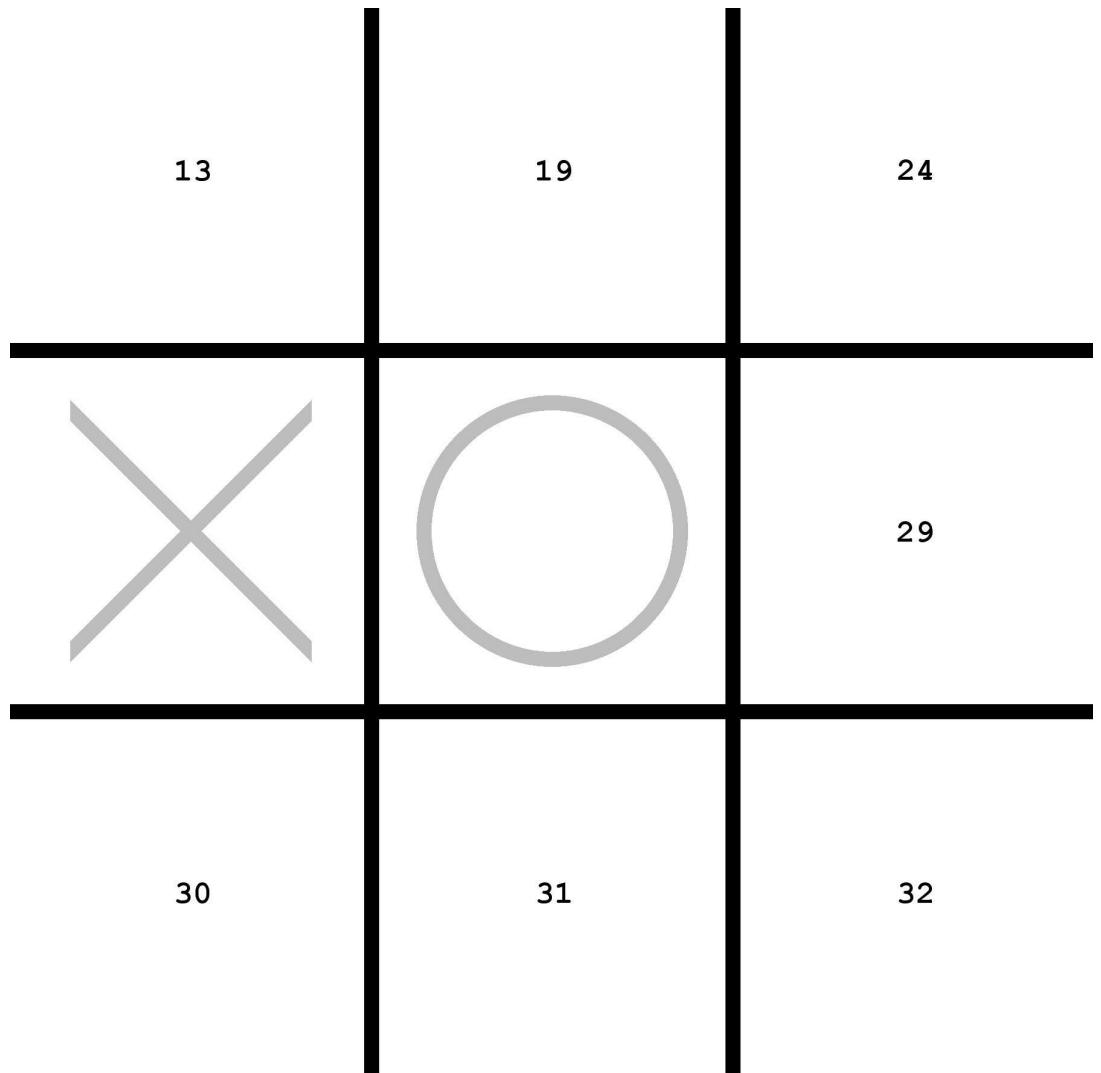

Repeat until there is winner, or a tie.
